1- MATERIALS

	Material	Find it at:
Plastic	Polyethylene (PE)	It is mainly found in products manufactured by rotational moulding.
	ABS	Enoki, Bianca
	PVC	Coating of the Garland bulbs.
	Silicone	Rocket 20
	PP Difusor	Lola Slim 30
Metal	Iron Painted	Lola slim, Amalfi hang, Stellina
	Steel	Weight Fity
Organic	Rattan*	Amalfi, Bossa, Saona
	Jute*	Allegra garland, Lia, Pallina, Mare
	Seagrass *	Sisine
	Beech Wood *	Chloe, Rocket family
	Coconut/cane *	Carina
Glass	Glass	Simona and Selena bulb

(*) For a correct maintenance, it is advisable to protect it from rain, direct exposure to the sun and sudden changes in temperature. Bamboo, rattan, beech or seagrass are natural materials, reason why changes of colour or cracks can happen. Ilf they are going to be exposed to natural elements, it is recommended to protect them regularly with some oil or varnish adapted to the specific material, so the protection to rain and UVA rays will be prolonged and the life of the product can be extended. To clean them up, use a cloth or brush to remove dust and rub gently with a slightly oistened sponge.

The possible differences between the original color, illumination and color captured are due to the printing technique.
NEWGARDEN reserves the right over photographs and designs made, so it is forbidden the manufacture, distribution and / or marketing shown on any media or any broadcasting means.
NEWGARDEN reserves the right to modify, in whole or in part, without prior notice, any information or technical specification of this publication.
All the information that appears in this catalog in terms of dimensions and capacity are approximate and are susceptible to variations due to improvements in the production process.

4- USE ACCORDING TO IP

We are going to explain in a very simple way the possibilities of use of Newgarden products according to their IP (index of protection of the electrical or electronic system against external agents)

IP20

Newgarden products with IP20 can only be used indoors, the electrical system, switches or cables must be protected from direct contact with water. Remember that although the product is made of Polyethylene resistant to the outside, this electrical system is designed for **indoor use only.**

IP43
IP44

Newgarden products with IP 43 / 44 can be used outdoors, it is protected against dust and weak and very moderate rain. **If this product also has accessories made of natural fibres, wood or metal parts, it is advisable to protect it from direct contact with water and humidity.** Store in a dry place after use. In the event of rain or very adverse weather conditions, it should be protected from the elements to avoid future problems.

IP54

Newgarden products with IP 54 **can be used outdoors, they are protected against dust and light rain.** If this product also has accessories made of natural fibres, wood or metal parts, it is advisable to protect it from direct contact with water and humidity. Store in a dry place after use. In case of rain or very adverse weather conditions it must be protected from the weather to avoid future problems.

IP65

Newgarden products with IP 65 **can be used outdoors, they are airtight against dust and rain. If this product also has accessories made of natural fibres, wood or metal parts, it is advisable to protect it from direct contact with water and humidity.** Store in a dry place after use. In case of rain or very adverse weather conditions it must be protected from the weather to avoid future problems.
